V. Reasoned statement under Article 35(2) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement

1. Statement

Novelty (N)	Claims	1-27	YES
	Claims		NO
Inventive step (IS)	Claims	1-27	YES
	Claims		NO
Industrial applicability (IA)	Claims	1-27	YES
	Claims		NO

2. Citations and explanations

The manufacturing device known from DE-A-4442381 is regarded as the prior art closest to the subject matter of claim 1. The manufacturing device known from DE-A-4442381 corresponds to the manufacturing device described in the preamble of claim 1.

The subject matter of independent claim 1 differs from the known manufacturing device by the features in the characterising part of claim 1.

The subject matter of independent claim 1 is therefore novel (PCT Article 33(2)).

The present invention can be considered to address the problem of protecting against damage the adjusting and/or guiding device for the detection device mentioned in DE-A-4442381.

The solution to this problem, as proposed in claim 1 of the present application, involves an inventive step (PCT Article 33(3)). It cannot be found in the prior art documents cited in the search report.

Claims 2-27 are dependent on claim 1 and therefore likewise meet the PCT novelty and inventive step requirements.
